

Estimated burden: Public reporting burden for initial notifications is estimated to be 4.25 hours and 2.10 hours for subsequent notifications. This reporting burden includes time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Director, Regulatory Information Division, 2136, U.S. Environmental Protection Agency, 401 M St., S.W., Washington D.C. 20460; and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, D.C. 20503, marked "Attention Desk Officer of EPA."

LINE-BY-LINE INSTRUCTIONS FOR COMPLETING MO 780-1164

Type or print in ink all items except Item XI, "Signature," leaving a blank box between the words. The boxes are spaced at 1/4" intervals which accommodate elite type (12 characters per inch). When typing, hit the space bar twice between characters. If you print, place each character in a box. Abbreviate if necessary to stay within the number of boxes allowed for each item. If you must use additional sheets, indicate clearly the number of the Item on the form to which the information on the separate sheet applies.

(NOTE: All new registrations require a \$100 initial fee as stated in 260.380.1 (1), Revised Statutes of Missouri. Registrations without this fee will not be processed. The fee is not required if you are only updating information to an existing, active registration.)

ITEM I — TYPE OF NOTIFICATION:

Place an "X" in the appropriate box to indicate whether this is a new notification (Box A) or a subsequent notification (Box B) for this site.

A) New Notification: If this is a new notification, mark if you are applying for a permanent or for a 30 day temporary EPA Identification number (temporary numbers are issued to Missouri generators only). If you are applying for a temporary number, you must also enter the date that you will want the number to be effective.

B) Subsequent Notification: If you are filing a subsequent notification or if you are an out-of-state generator, enter your EPA ID number in the space provided.

Note: When the owner of a facility changes, the new owner must notify U.S. EPA of the change, even if the previous owner already received a U.S. EPA Identification number. Because the U.S. EPA Identification number is "site-specific," the new owner will keep the existing ID number. If the facility moves to another location, the owner/operator must notify EPA of this change. In this instance a new U.S. EPA Identification number will be assigned, since the facility has changed locations. The same is true of a Missouri Generator Identification number as for an EPA Identification number.

ITEMS II AND III — NAME AND LOCATION OF INSTALLATION:

Complete items II and III. Please note that the address you give for item III, "Location of the Installation," must be a physical address, not a post office box or route number.

County Name and Code: Give the county code, if known. If you do not know the county code, enter the county name, from which EPA can automatically generate the county codes. If the county name is unknown, contact the local post office. To obtain a list of county codes, contact the National Information Service, U.S. Department of Commerce, Springfield, Virginia, 22161 or at (703) 487-4650. The list of codes is contained in the Federal Information Processing Standards Publication (FIPS PUB) Number 6-3.

ITEM IV — INSTALLATION MAILING ADDRESS:

Please enter the installation mailing address. This is the address that all correspondence (including fee and tax bills) will be sent to. If the mailing address and the location of the installation (Item III) are the same, you can print "SAME" in the box for Item IV. If the mailing address of the person listed as the contact person in Item V is different from the installation's mailing address listed in this section, enter the contact person's mailing address in Item X.

ITEM V — INSTALLATION CONTACT:

Enter the name, title and business telephone number of the person

who should be contacted regarding information submitted on this form. All correspondence will be sent to this person's attention at the mailing address.

ITEM VI — OWNERSHIP:

A) Name of Installation's Legal Owner (Business Owner): Enter the name of the legal owner(s) of the installation. Also enter the address and phone number where this individual can be reached. Use the comments section in Item X or additional sheets if necessary to list more than one owner.

B) Change of Installation Owner Indicator: (If this is your installation's first notification, leave Item VI.B. blank.) If the owner of the installation (business) has changed since the facility's original notification, place an "X" in the box marked "Yes" and enter the date that the owner changed.

C) Installation Owner Type: Circle the code that best describes the legal status of the current business owner of the facility.

Note: Ownership code "H" for Hospitals may only be used if a facility is licensed under Chapter 197 of the Revised Statutes of Missouri (RSMo).

D) Name of the Property's Legal Owner: Enter the name of the legal owner(s) of the property. Also enter the address and phone number where this individual can be reached. Use the comments section in Item X or additional sheets if necessary in order to list more than one owner. If the property owner and the installation's legal owner (Item VI.A.) are the same, you can print "SAME" in the box for item VI.D.

E) Change of Property Owner Indicator: (If this is your installation's first notification, leave item VI.E. blank.) If the owner of the property has changed since the facility's original notification, place an "X" in the box marked "Yes" and enter the date that the owner changed.

F) Property Owner Type: Circle the code that best describes the legal status of the current owner of the property.

ITEM VII — TYPE OF REGULATED WASTE ACTIVITY:

A) Hazardous Waste Activities: Mark an "X" in the appropriate box(es) to show which hazardous waste activities are going on at this installation.

1) Generator: If you generate a hazardous waste that is identified by characteristic or listed in 40 CFR Part 261, mark an "X" in the appropriate box for the quantity of nonacutely hazardous waste that would indicate the highest generation per month or accumulation at any one time. If you generate acutely hazardous waste, please refer to 40 CFR Part 262 and 10 CSR 25-5 for further information.

2) Transporter: If you transport hazardous waste, indicate if it is your own waste, for commercial purposes, or mark both boxes if both classifications apply. Mark an "X" in each appropriate box to indicate the method(s) of transportation you use. Transporters do not have to complete item VIII of this form, but must sign the certification in section XI. The Federal regulations for hazardous waste transporters are found in 40 CFR Part 253; the State regulations are found in 10 CSR 25-6.

3) Treater/Storer/Disposer: If you treat, store or dispose of regulated hazardous waste, then mark an "X" in this box. You are reminded to contact your State to request Part A of the RCRA Permit Application. The Federal regulations for hazardous waste facility owners/operators are found in 40 CFR Part 264 and 265; the State regulations are found in 10 CSR 25-7.

4) Exempt Boiler and/or Industrial Furnace: If you burn hazardous wastes in a smelting, melting, or refining furnace solely for metals recovery, as described in 40 CFR 266.100(c), or to recover economically significant amounts of precious metals, as described in 40 CFR 266.100(f), mark an "X" in the box to indicate that you qualify for the smelting, melting and refining furnace exemption.

If you burn small quantities of hazardous wastes in an on-site boiler or industrial furnace in accordance with the conditions in 40 CFR 266.108, place an "X" in the box to indicate that you qualify for the Small Quantity On-Site Burner Exemption.

5) Underground Injection Control: If you generate and/or treat, store, or dispose of hazardous waste, place an "X" in the box if an injection well is located at your installation. "Underground Injection" means the subsurface emplacement of fluids through a bored, drilled or driven well; or through a dug well, where the depth of the dug well is greater than the largest surface dimension.

B) Universal Waste Activities: Mark an "X" in the appropriate box to indicate that universal waste handling activities are taking place at this installation and will result in the universal waste handler becoming a Large Quantity Handler of Universal Waste. The Federal regulations for large quantity handlers of universal waste are found in 40 CFR Part 273, Subpart C; the State regulations are found in 10 CSR 25-16

C) Used Oil Management Activities: Mark an "X" in the appropriate box(es) to indicate which used oil fuel activities are taking place at this installation. The Federal regulations for used oil management are found in 40 CFR Part 279; the State regulations are found in 10 CSR 25-11.

1) Used Oil Transporter/Transfer Facility: If you transport used oil, or if the site you are registering is a used oil transfer facility, mark an "X" in the appropriate box(es) to indicate your activity.

2) Used Oil Processor/Re-refiner: If you are processing or re-refining used oil at the facility which you are registering for, mark an "X" in the appropriate box(es) to indicate your activity.

3) Off-Specification Used Oil Burner: If you burn used oil fuel, place an "X" in the appropriate box.

4) Used Oil Fuel Marketer: If you market used oil fuel, place an "X" in the appropriate box(es).

Note: Used oil generators are required to notify only if they are marketing directly to a burner.

ITEM VIII — DESCRIPTION OF REGULATED WASTE ACTIVITY:
(Only persons involved in hazardous waste activity (Item VII.A.)

need to complete this item. Transporters requesting a U.S. EPA Identification number do not need to complete this item, but must sign the "Certification" in Item XI.) You will need to refer to 40 CFR Part 261 and 10 CSR 25-4 in order to complete this section. Part 261 identifies those wastes that EPA defines as hazardous. If you need help in completing this section, please contact your state.

A) Characteristics of Nonlisted Hazardous Waste: If you handle hazardous waste which are not listed in 40 CFR Part 261, Subpart D, but do exhibit a characteristic of hazardous waste as defined in 40 CFR 261, Subpart C, you should describe these waste by EPA hazardous waste number for the characteristic. Place an "X" in the box next to the characteristic of the waste you handle. If you mark "4. Toxicity Characteristic," please list the specific EPA hazardous waste number for the specific contaminant(s) in the box(es) provided.

B) Listed Hazardous Waste: If you handle hazardous waste that are listed in 40 CFR Part 261, Subpart D, enter the appropriate 4-digit numbers in the boxes provided.

Note — If you handle more than 12 listed hazardous wastes, please continue listing the waste codes on the extra sheet provided.

C) Other Waste: If you handle other waste or State regulated waste that have a waste code, enter the appropriate code number in the boxes provided.

ITEM IX — MISSOURI REQUIRED INFORMATION:

Missouri Generator Identification Number — If your installation has been previously assigned a six-digit Missouri Generator ID number for this location, enter it in the boxes provided.

Standard Industrial Classification Number — Enter the four-digit standard industrial classification number, as used by the U.S. Office of Management & Budget, that best typifies your business.

Principal Business Activity — Enter a description of the activity that best typifies your business, i.e., manufacture steel chairs and related products.

ITEM X — COMMENTS:

Use this space for any additional comment or Missouri specific information.

ITEM XI — CERTIFICATION:

This certification must be signed by the owner, operator, or an authorized representative of your installation. An "authorized representative" is a person responsible for the overall operation of the facility (i.e., a plant manager or superintendent, or a person of equal responsibility). All notifications must include the certification to be complete.

MAIL COMPLETED FORMS AND \$100 FEE IF APPLICABLE TO:
MISSOURI DEPARTMENT OF NATURAL RESOURCES
HAZARDOUS WASTE PROGRAM
P.O. BOX 176
JEFFERSON CITY, MO 65102

Name of Installation	ID For Official Use Only

VII. Type of Regulated Waste Activity (only mark the following sections that apply)**A. HAZARDOUS WASTE ACTIVITIES**

1. Generator (quantity generated per month or accumulated at any one time)

- ☐ a. Greater than 1000kg (2200 lbs)
☐ b. 100 - 1000kg (220 - 2,200 lbs)
☐ c. Less than 100kg (220 lbs)

2. Transporter (mark only if you have or are applying for a MO transporter license)

- ☐ a. For own waste only
☐ b. For commercial purposes

Mode of transportation

- ☐ 1. Air
☐ 2. Rail
☐ 3. Highway
☐ 4. Water
☐ 5. Other - Specify

3. Treater, Storer Disposer (at installation)

☐ Note: A permit is required for this activity; see instructions

4. Exempt Boiler and/or Industrial Furnace

- ☐ a. Smelting, Melting, and Refining
Furnace Exemption
☐ b. Small Quantity On-Site Burner
Exemption

5. Underground Injection Control

☐**C. USED OIL MANAGEMENT ACTIVITIES**

1. Used Oil Transporter/Transfer Facility - Indicate Type(s) of Activity(ies)

- ☐ a. Transporter
☐ b. Transfer Facility

2. Used Oil Processor/Re-refiner - Indicate Type(s) of Activity(ies)

- ☐ a. Processor
☐ b. Re-refiner

3. Off-Specification Used Oil Burner

☐

4. Used Oil Fuel Marketer

- ☐ a. Marketer Who Directs Shipment of Off-Specification Used Oil to Used Oil Burner
☐ b. Marketer Who First Claims the Used Oil Meets the Specifications

B. UNIVERSAL WASTE ACTIVITY☐ Large Quantity Handler of Universal Waste**VIII. Description of Regulated Waste Activity (Use Additional Sheets if Necessary)**

A. Characteristics of Nonlisted Hazardous Waste. Mark "X" in the boxes corresponding to the characteristics on nonlisted hazardous wastes your installation handles. (See 40 CFR Parts 261.20 - 261.24)

1. Ignitable
(D001)☐☐2. Corrosive
(D002)☐☐3. Reactive
(D003)☐☐4. Toxicity
(D000)☐☐

List specific EPA hazardous waste codes for the Toxicity characteristic containments

DEFINITIONS

The following definitions are included to help you to understand and complete the Notification Form:

ACT or RCRA means the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act of 1976, as amended by the Hazardous and Solid Waste Amendments of 1984, 42 U.S.C. Section 6901 et seq.

Authorized Representative means the person responsible for the overall operation of an installation or an operational unit (i.e., part of a facility) e.g., superintendent or plant manager, or person of equivalent responsibility.

Boiler means an enclosed device using controlled flame combustion and having the following characteristics:

- (1) the unit has physical provisions for recovering and exporting energy in the form of steam, heated fluids, or heated gases;
- (2) the unit's combustion chamber and primary energy recovery section(s) are of integral design (i.e., they are physically formed into one manufactured or assembled unit);
- (3) the unit continuously maintains an energy recovery efficiency of at least 60 percent, calculated in terms of the recovered energy compared with the thermal value of the fuel;
- (4) the unit exports and utilizes at least 75 percent of the recovered energy, calculated on an annual basis (excluding recovered heat used internally in the same unit, for example, to preheat fuel or combustion air or drive fans or feedwater pumps); or
- (5) the unit is one which the Regional Administrator has determined on a case-by-case basis, to be a boiler after considering the standards in 40 CFR 260.32.

Burner means the owner or operator of any boiler or industrial furnace that burns hazardous waste fuel for energy recovery and that is not regulated as a RCRA hazardous waste incinerator.

Disposal means the discharge, deposit, injection, dumping, spilling, leaking, or placing of any solid waste or hazardous waste into or on any land or water so that such solid waste or hazardous waste or any constituent thereof may enter the environment or be emitted into the air or discharged into any waters, including ground waters.

EPA Identification (ID) Number means the number assigned by EPA to each hazardous waste generator, hazardous waste transporter, and treatment, storage, or disposal installation; large quantity handler of universal wastes; used oil transporter, used oil processor/re-refiner, off-specification used oil fuel burner, and used oil fuel marketer.

Generator means any person, by site, whose act or process produces hazardous waste identified or listed in 40 CFR Part 261.

Hazardous Waste means a hazardous waste as defined in 40 CFR 261.3.

Industrial Furnace means any of the following enclosed devices that are integral components of manufacturing processes and that use controlled flame combustion to accomplish recovery of materials or energy: cement kilns, lime kilns, aggregate kilns (including asphalt kilns), phosphate kilns, coke ovens, blast furnaces, smelting, melting and refining furnaces, titanium dioxide chloride process oxidation reactors, methane reforming furnaces, pulping liquor recovery furnaces, combustion devices used in the recovery of sulfur values from spent sulfuric acid, and other devices as the Administrator may add to this list.

Installation means all contiguous land, structures, other appurtenances, and improvements on the land, used for treating, storing, or disposing of hazardous waste. An installation may consist of several treatment, storage, or disposal operational units. (For entities that only transport regulated wastes, the term installation refers to the headquarters of that entity's operations.)

Large Quantity Universal Waste Handler means a universal waste handler who accumulates 5,000 kilograms or more total of universal waste (batteries, pesticides, or thermostats, calculated collectively) at any time.

Municipality means a city, village, town, borough, county, parish, district, association, Indian tribe or authorized Indian tribal organization, designated and approved management agency under Section 208 of the Clean Water Act, or any other public body created by or under State law and having jurisdiction over disposal of sewage, industrial wastes, or other wastes.

Off-Specification Used Oil Fuel means used oil fuel that does not meet the specification provided under 40 CFR 279.11.

On-Specification Used Oil Fuel means used oil fuel that meets the specification provided under 40 CFR 279.11.

Operator means the person responsible for the overall operation of an installation.

Owner means a person who owns an installation or part of an installation, including the property owner.

Storage means the holding of hazardous waste for a temporary period, at the end of which the hazardous waste is treated, disposed of, or stored elsewhere.

Transportation means the movement of hazardous waste by air, rail, highway, or water.

Transporter means a person engaged in the off-site transportation of hazardous waste by air, rail, highway, or water.

Treatment means any method, technique, or process, including neutralization, designed to change the physical, chemical, or biological character or composition of any hazardous waste so as to neutralize such waste, or so as to recover energy or material

resources from the waste, or so as to render such waste nonhazardous, or less hazardous; safer to transport, store or dispose of; or amenable for recovery, amenable for storage, or reduced in volume. Such term includes any activity or processing designed to change the physical form or composition of hazardous waste so as to render it nonhazardous.

Universal Waste means batteries as described in 40 CFR 273.2, pesticides as described in 40 CFR 273.3 as modified by paragraph (2)(A)3. 10 CSR 25-16, mercury switches as described in subparagraph (2)(A)4.A. 10 CSR 25-16, thermostats as described in 40 CFR 273.4, as incorporated in 10 CSR 25-16, mercury containing thermometers and manometers as described in subparagraph (2)(A)4.B. 10 CSR 25-16 and mercury containing lamps as described in subparagraph (2)(A)4.C. 10 CSR 25-16.

Used Oil means any oil that has been refined from crude oil, or any synthetic oil, that has been used, and as a result of such use, is contaminated by physical or chemical impurities.

Used Oil Fuel means any used oil burned (or destined to be burned) for energy recovery including any fuel produced from used oil by processing, blending or other treatment, and that does not contain hazardous waste (other than that generated by a conditionally exempt small quantity generator and exempt from

regulation as hazardous waste under provisions of 40 CFR 261.5). Used oil fuel may itself exhibit a characteristic of hazardous waste and remain subject to regulation as used oil fuel provided it is not mixed with hazardous waste.

Used Oil Processing means chemical or physical operations designed to produce from used oil, or to make used oil more amenable for production of, fuel oils, lubricants, or other used oil-derived products. Processing includes, but is not limited to: blending used oil with virgin petroleum products, blending used oils to meet the fuel specification, filtration, simple distillation, chemical or physical separation, and re-refining.

Used Oil Processor means an installation that processes on- or off-specification used oil.

Used Oil Re-refiner means an installation that produces lubricating oils and greases, industrial fuel, asphalt extender, gasoline, and other products from on- or off-specification used oil.

Utility Boiler means a boiler that is used to produce electricity, steam or heated or cooled air or other gases or fluids for sale.

Waste Fuel means hazardous waste fuel or off-specification used oil fuel.
